

1 wouldn't really know if he had chronic diarrhea? You
2 weren't told that by your meetings with --

3 A No. I was not told that there were problems
4 with -- currently with chronic diarrhea, that we were --
5 that he was now having formed stools. You know,
6 Dr. Higdon --

7 Q Uh-huh --

8 A -- I think the work you did with your kids to
9 this point is phenomenal and I think that probably you --
10 you know, looking at Aidon, I think that you probably did
11 heroic things in getting this kid to be as good as he is
12 now. And he certainly needs biologic support. But
13 biologic support and a clinical diagnosis of autism are
14 two very different things.

15 Q -- yes. I agree a hundred percent.

1 Q But you --

2 A I said that my understanding
3 have diarrhea.

4 Q No. But you said he was fir
5 was -- I don't know, I'll have to get y
6 was developing swimmingly was you

7 A I think his development is v
8 range.

9 Q Sure.

10 A I think he has biologic issue
11 support and work but that doesn't m

12 Q Did you know that after Car
13 IVIG, after his mother stopped IVIG a
14 recommended by Gupta and West to
15 that the following four months after
